### ISO 9001 : 2018 - Certified Lead Auditor - Certification Overview

This Certification covers the ISO 9001:2018 standard in detail. Course designed exclusively for professionals who would like to establish their career as lead auditors for ISO 9001 and for professionals who would like to implement QMS. To gather objective evidence via various methods and determine conformity to the requirements of Quality Management Systems the ISO 9001 : 2018 Certified Internal Auditor Certification suits the requirement.

ISO 9001:2018 Lead Auditor (ISO9001LA) or Quality Management System certification will help you understand the key principles and practices of effective QMS audits and its alignment with ISO 9001:2018. Certified Professional will achieve the knowledge and skills required to plan, design, and execute a successful management systems audit.

Achiever of this certification will successfully implement Plan, Do Check, Act (PDCA) cycle with following best practices with keeping mind of management responsibility, policy, objectives, planning, implementation, measurement, review, and continuous improvement.

### Target Audience

The ISO 9001:2018 Certified Lead Auditor certification is designed for professionals who are involved in auditing, implementing, managing, or maintaining Quality Management Systems (QMS) based on ISO 9001 standards. This certification is particularly suitable for:

- Quality Managers and Quality Assurance Professionals responsible for establishing, implementing, and improving QMS
- Internal and External Auditors seeking to perform first-, second-, or third-party audits
- Management Representatives overseeing ISO 9001 compliance within organizations
- Process Owners and Department Heads involved in quality planning and process improvement
- Consultants and Advisors providing ISO 9001 implementation and audit services
- Compliance and Risk Management Professionals
- Operations and Production Managers responsible for process efficiency and quality control
- Professionals aspiring to become ISO Lead Auditor
- Graduates and professionals seeking a career in quality management and auditing

This certification is ideal for individuals who aim to enhance their auditing competence, gain international recognition, and support organizations in achieving and maintaining ISO 9001 compliance.
