

## IMTQN Certified Advanced Mobile Tester (CAMT)<sup>®</sup>

### Course Outline

[www.gaqm.org](http://www.gaqm.org)

#### What Modules are covered?

- Module 1 - Introduction to Mobile Testing
- Module 2 - User Expectations and Challenges for Testers
- Module 3 - Necessary Skills & Lifecycle Models
- Module 4 - Test Planning and Design for Mobile
- Module 5 - Define Coverage Goals
- Module 6 - Determining Your Mobile Test Approach
- Module 7 - Identifying Test Conditions and Setting Test Scope
- Module 8 - Regression Testing in Mobile Applications
- Module 9 - Functional Testing - Security Testing
- Module 10 - Functional Testing - Interoperability Testing
- Module 11 - Designing Mobile Tests
- Module 12 - Foundational Test Design Techniques
- Module 13 - Mobile-specific Techniques
- Module 14 - Non-Functional Testing - Performance Testing
- Module 15 - Non-Functional Testing - Usability Testing
- Module 16 - Foundational Test Design Techniques
- Module 17 - Portability Testing
- Module 18 - Reliability Testing
- Module 19 - Tool Overview
- Module 20 - Environments and Protocols - Part 1
- Module 21 - Environments and Protocols - Part 2
- Module 22 - Specific Application-Based Environment Considerations
- Module 23 - Real Devices, Simulators and Emulators
- Module 24 - Mobile Testing in the Cloud
- Module 25 - Performance Test Tools and Support
- Module 26 - Test Automation
- Module 27 - Future Proofing
- Module 28 - Build for Change
- Module 29 - Plan for the Future
- Module 30 - Anticipating the Future
