#### About ISO/IEC 42001 - Certified Lead Auditor

ISO 37101 is a management system standard for sustainable development in communities. It provides a framework for communities to improve their sustainability by taking into account the needs of all stakeholders and aligning with global best practices. Becoming a certified lead auditor for ISO 37101 involves several steps and requires specific training and experience. Here is a detailed guide on how to achieve this certification:

#### Who can take this Certification?

- 1) Auditors seeking to perform and lead certification audits for a management system for sustainable development in communities based on ISO 37101
- 2) Individuals seeking to master the audit process of an MSSDC
- 3) Internal auditors responsible for maintaining conformity to the requirements of ISO 37101
- 4) Technical experts seeking to prepare for an MSSDC audit
- 5) Expert advisors in sustainable development management

#### What Modules are included?

- 1) Understand the operations of a management system for sustainable development in communities (MSSDC) based on ISO 37101
- 2) Acknowledge the correlation between ISO 37101 and other standards and regulatory frameworks
- 3) Understand the auditor's role in planning, leading, and following up on a management system audit in accordance with ISO 19011
- 4) Learn how to interpret the requirements of ISO 37101 in the context of an MSSDC audit
