

Post Graduate Diploma in Web Designing and Development (PGDWDD)

Brochure

www.gaqm.org

In this Diploma, you will get the design skills needed to build and manage highly engaging, user-friendly websites. You will also develop the know how to work as an indie developer or as part of a development team.

Employing best practice web development techniques, the latest hardware and industry leading training, our Diploma will set you apart from the IT crowd.

Web Development is the process of creating websites for the internet. This involves the design of both the back-end and the front-end of a website. Front-end includes designing a webpage, adding user interactivity with scripting languages like javascript. Back-end includes the server-side scripting for database availability, creation of various web services, etc.
