

# Diploma in Hardware and Networking (DHN)

## Brochure

[www.gaqm.org](http://www.gaqm.org)

The Diploma in Hardware and Networking is a vendor-neutral certification that certifies the competency of service professionals in the computer industry. It is for anyone who wants an internationally recognized credential as a competent computer service professional

The exponential growth in networks in recent years has totally changed the way we work and play. We now demand instant communication with anyone via voice, text and video and immediate access to all kinds of information and services. The networks that make this possible involve a wide range of engineering challenges.
