Qualifications leading to Employment

GAQM®

Global Association for Quality Management
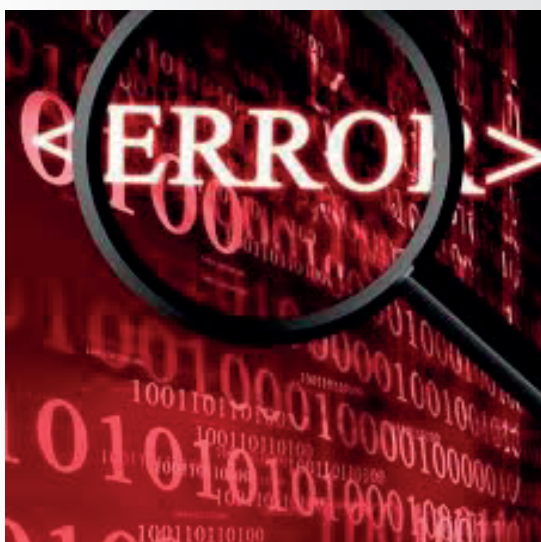

If you are exploring new career opportunities or want to stay current in the Software and Mobile Testing field, our Post Graduate Diploma program can provide you a focused career training and skill development for working professionals.

The Software and Mobile Testing is suitable for those who are engaged in any aspect of software testing. The topics covered are those which are considered to be essential knowledge for an advanced level test professional, regardless of their specialism (i.e. Test Analysis or Test Management).

The Diploma is also interesting and helpful to know what could be the different questions that are asked to people by an employer while selecting them for various positions in the mobile testing field such as a software tester
